

Gold Award — **Best Chiropractor - Route 30**

Gold Award — **Best Massage Therapy - Route 30**

Community Award — **Best Chiropractor - White Oak**

Agona Chiropractic

Agona Center of Wellness has again won Readers' Choice Gold Awards for Best Chiropractor and Best Massage Therapy in the Route 30 region. Agona Center of Wellness has been recognized for this award for many years. The center also won the Community Award for Best Chiropractor in White Oak.

Dr. Dan Agona, owner of the wellness center, is now in his 24th year in practice at the same location. More than 10 years ago, he expanded into a fully equipped wellness facility. Dr. Agona completed his bachelor's degree in human biology and his Doctorate of Chiropractic from the National School of Health Sciences in Chicago.

Dr. Agona has more than 30 years of experience in the health and wellness field. He got his start in the military, as a hospital corpsman/medic in the active-duty Navy and Army National Guard for a total of seven years.

The Wellness Center provides manual and computerized adjustments, massage therapy (including a hydromassage bed), electrical muscle stimulation, ultrasound and physical rehab. Also, computerized testing for foot orthotics and body chemistry to determine nutritional (supplemental) needs is available.

Our facility has licensed massage therapists. We provide 30-, 60- and 90-minute massages, as well as hot stone massage (upon availability).

Dr. Agona's wife, Amy, runs Nature's Pharmacy, which is attached to the center, providing natural, specialized, vitamin and herbal products.

At Nature's Pharmacy, "A Powerful New Natural Remedy", CBD/Hemp is now available.

Hemp is the sister plant of marijuana. Marijuana has high levels of THC, while hemp does not. They both contain CBD (Cannabinoids) which is the powerful remedy helping so many people. With the opioid crisis, CBD/Hemp, along with the other wellness services we provide, is the answer.

Our high-quality CBD/Hemp products are lab tested for purity. We educate the public about the uses and benefits of CBD/Hemp, with informational forums featuring a special speaker.

Dr. Agona and Amy find their patients and customers seek the tinctures, balms, lotions, vapes and gummies.

Here's what they are saying:

"For years I suffered in pain. I was taking

prescription drugs with many side effects. A friend told me about the CBD/Hemp. I started using the 500mg tincture. My pain is relieved, and I don't need the drugs. I continue with the CBD/Hemp for pain control!"

— Richard

"Tried another web brand. Does not work as well as NU Apothecary."

— C.B.

"The CBD tincture has helped me with my chronic pain. I have been able to stop taking the Meloxicam (Mobic)."

— Cindy

"I was skeptical of the CBD/Hemp. But soon after using the CBD/Hemp balm, it relieved my pain and inflammation."

— Elizabeth
